Matching the right candidate to the right job

Established in 1996 in Tewkesbury, Gloucestershire, In-Parallel Computer Staff Ltd specialises in supplying IT/Engineering staff on a contract basis to major clients throughout the UK. Our existing clients and contractors value the professional, knowledgeable and friendly approach that has become a hallmark of our service. As a new client, our aim is to convince you that you have chosen to work with a technically competent and ethically sound employment agency, and that your business will benefit from using our talented consultants to source and deliver candidates who meet with the most demanding skills and experience mix.

Market specialisation

We specialise in supplying technical staff to the following market sectors:

- AVIONICS AND AEROSPACE
- AUTOMOTIVE AND TRANSPORT SYSTEMS
- AIR TRAFFIC CONTROL
- DEFENCE
- TELECOMMUNICATIONS
- MOBILE COMMUNICATIONS (GSM)
- PROCESS CONTROL AND MONITORING SYSTEMS
- COMMERCIAL AND CONSUMER ELECTRONICS
- SPACE AND SATELLITES

Typically this includes experts in the following fields:

Software Engineers
 Hardware Engineers
 Firmware Engineers
 Systems Engineers
 Electronics Engineers
 Quality Assurance Engineers
 RF Design Engineers
 Safety Engineers
 Test Engineers

Software Configuration Control
 Technical Authors
 PC/Network Support
 Project Leaders
 Team Leaders
 Database Designers
 CAD/CAE Engineers
 Systems Managers

Reliability Engineers
 Analogue Engineers
 EMC Engineers
 ATE Engineers
 Analyst/Programmers
 Project Planners
 Unix Administrators

In addition we also have available a selection of more commercially based expertise including Business Analysts, Systems Analysts, Programmers and Project Managers. Typically these candidates have gained their expertise in the Financial, Insurance and Telecommunication industries.

Client benefits

Our experience and strong practical advice can benefit your business with tailored solutions to meet with your particular requirements. This will help you to overcome peak loadings and assist you in the control of engineering costs as an overhead to your business.

Computer Staff

Flexible working

Typically, Contractors are engaged by one of the following solutions; but we are always willing to discuss other innovative methods to meet with your precise requirements:

- **Hourly Rate:** the traditional mode of contracting with a Contractor paid by the hour;
- **Daily Rate:** Contractors paid on a daily rate basis for supplying their services. This is useful to clients who prefer advanced information for fixed forward budgeting;
- **Fixed Price Work Package:** where a task can be definitively scoped, we can supply a Contractor to quote for the work and agree an overall cost and timescale for delivery of package making either stage payment or a one-off payment on delivery. This type of arrangement can be implemented for either an individual contractor or a team of Contractors working on various tasks based either at your premises or offsite.

As with all industries, legislation has become an increasing aspect of the process of contracting. In association with recognised legal experts in our industry we constantly review the way in which we conduct our business to ensure that it is compliant with all legislative processes. This will protect your interests in the use of sub-contract resources.

Whichever solution suits your business, you can be assured that you have selected a trustworthy partner who will deliver your resources in a smooth and efficient manner. Our team now look forward to building a strong and successful business relationship with your Company.
